EDUCATION

Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat

Aug 2023 – May 2027

B.Tech – CGPA: 8.27/10

Citizen School

2023

Higher Secondary Education – JEE Mains: 95.48 Percentile

TECHNICAL SKILLS

Languages: Python, Java, FastAPI

DSA & OOP: Data Structures & Algorithms, Object-Oriented Programming

ML & AI: Machine Learning, Deep Learning, NLP, Generative AI

Agentic Frameworks: LangChain, LangGraph, LangSmith, RAG, Ollama, MCP

Data Tools: PyTorch, TensorFlow, Streamlit, Pandas, NumPy, Matplotlib, Seaborn

Databases: MySQL, PostgreSQL, Redis, Qdrant

Core CS: Operating Systems, Computer Networks

DevOps: Docker, Kubernetes, AWS, CI/CD, Git, GitHub

EXPERIENCE

Elite Technocrats

Present

Data Scientist Intern

- Working on real-world Data Science and AI/ML tasks involving data preprocessing, model development, and analysis.
- Applying Python-based ML workflows using libraries such as Pandas, NumPy, and Scikit-Learn.
- Collaborating on AI-driven solutions and gaining hands-on industry experience in machine learning systems.

PROJECTS

VectorHub – Production-Ready RAG Chatbot System  Dec 2025 – Present

Tech Stack: FastAPI, LangGraph, PostgreSQL, Redis, Qdrant, Streamlit, Docker

- Engineered a production-ready RAG chatbot with intent-based routing, separating conversational and retrieval workflows using LangGraph.
- Implemented structured LLM outputs (answer + confidence) and confidence-based dynamic tool invocation (DuckDuckGo, Wikipedia).
- Designed scalable backend using PostgreSQL (persistent memory), Redis (short-term memory + caching), and Qdrant for vector search.
- Built modular LangGraph pipelines with dynamic system-message injection to enhance contextual control and response consistency.
- Integrated JWT authentication, FastAPI backend, and LangSmith observability for tracing, debugging, and performance optimization.

VisionChat – AI-Powered Visual Intelligence System  Dec 2025 – Present

Tech Stack: PyTorch, VGG16, COCO Dataset, Ollama (Llama 3.2), LangGraph, LangSmith

- Developed a Google Lens-inspired system combining fine-tuned VGG16 image classification with LLM-driven contextual reasoning.
- Built an end-to-end pipeline for image preprocessing, object detection, and semantic feature extraction.
- Integrated Llama 3.2 with LangGraph workflows and LangSmith monitoring for explainable outputs.

CERTIFICATIONS

The Ultimate Job Ready Data Science Course	Sept 2025
Data Science Internship Completion Certificate (YHills)	Mar 2025

ACHIEVEMENTS

- Solved 300+ Data Structures & Algorithms problems on LeetCode.
- Authored multiple LeetCode solutions with a combined **16K+ views**.
- Finalist in **PowerMind Hackathon 2026** organized by SVNIT Surat and Adani Enterprise.
- Secured 95.48 percentile in JEE Mains 2023.

CLUBS & ACTIVITIES

ACM, NIT SURAT	Executive
<i>2024 – 2025</i>	

- Helped plan and manage technical events, workshops, and coding competitions.
- Participated in technical meetups and discussions on emerging technologies.

MindBend, NIT SURAT	Co-ordinator
<i>2024 – 2025</i>	

- Served in the Discipline Committee ensuring smooth execution of events.
- Coordinated logistics and arrangements for efficient event management.
